Bootlegger Given Surprise of Life

Moreno Temporano, of Colma, who was tried for bootlegging before Judge John F. Partridge, was given the surprise of his life when the court set the sentence at five months in prison and $500 fine. Temporano, who was expecting to get free with a little fine, collapsed in the court room, but was given another shock when the judge informed him that if he couldn't pay the $500 he would have to serve an additional five months in jail. RUNNYMEDE NOTES

One of the largest and most successful dances of the season was held Wednesday evening by the Runnymede '49er Club, to defray the expenses of their part in the Pageant of Progress. It was strictly an old fashioned dance and with nearly 150 couples in costume of the days of '49 it was worth while to have seen the grand march. Palo Alto, Mayfield and Redwood City were out in numbers and there were visitors from all along the peninsula. So popular was it that it was requested that it be repeated again next Wednesday and it will be with the same music and probably more costumes.

Ice cream and cold drinks were served and next Wednesday's '49er dance will be looked forward to. Everybody interested in the Runnymede '49ers are invited.

Kohl Will Contest Dropped

The Kohl will contest, which has attracted considerable atention of late, due chiefly to the large amounts involved and partly to the number of contestants who attacked the will when it was first filed, was dropped just prior to the hearing of the case which was slated for Thursday.

The contest, which has been on the books of the local court for several months was made by Leon Dexter and Harry Hunter, relatives of the late Fredrick Kohl, millionaire suicide, whose estate was left to a Mrs. Marion Laudenback. The other contestants, five in number, were thrown out by the court earlier in the proceedings.

Theodore Roach, representing the contestants, filed the notice of dismissal of the petition for revocation of will last Wednesday. It is understood that Mrs. Louderback released $100,000 of the estate to the attorneys of the contesing heirs as a settlement. A contest was avoided earlier in the proceedings when Mrs. Kohl, wife of the deceased, accepted a settlement of $100,00 as her portion of the estate. Under the provisions of the will, Mrs. Kohl, as well as the other relatives of the deceased, were ignored. The contestants claimd that Kohl was under undue influence at the time the will was made.

NEAR BLAZE AT SEQUOIA HOTEL

The prompt action of the fire department averted what might have been a serious fire yesterday morning when a blaze started in the furnace room of the Sequoia hotel. While the hotel was not in any danger, the heating equipment being lodged in a seperate brick building, there was a chance for a time that the steam heating and ventilating system would be put out of commission. The fire started when an oil burner in the furnace overflowed, and while the oil smoke blackened the interior of the building plentifully no more serious damage was done.

EDITORIAL EGOTISM

It is an old saying that "Self Praise Stinks," and this applies to a newspaper just as well as to an individual.

When a paper must comment editorially on the amount of news it publishes more than any other paper, it must either be laid to mere egotistical "bumptiousness" or construed as a reflection upon the intellect of its readers and their capacity of judging for themselves. Lately we have been treated to such an example of 'horn blowing' by a semi-local publication, and while we would prefer to ignor an attack of this kind, yet we must insist upon the intelligence of Redwood City people being recognized. The people are able to discern news from lines, and if they have judged, no amount of self conceit, publicly expressed will change the verdict.

Claude Swart, nephew of District Attorney Franklin K. Swart, who has been making his home with his uncle here for several years, was called back to his former home in Goshen, Indiana, by the news of the death of his father.

FAKE FEDERAL OFFICERS COLLECT AT LA HONDA

Displaying stars and claiming to be federal officers, three men "arrested" Barney Bonzagni of La Honda, his wife and a farm hand named Carmani, and held them prisoners on the Bonzagni ranch near La Honda last Monday evening. The three captives are reported to have been tied to a wagon, but were offered their freedom upon the payment of $1,200.

The two men were left tied to the wagon guarded by two of the fake federal officers, and the third man known as Faisst took Mrs. Bonzagni to San Francisco to the home of Deyli Primo, where she said she could secure the money. Primo paid Faisst $600 and promised to pay the other $600 if he would return the next day. So it happened that Faisst returned to the Primo house the next day, but instead of getting the money he was expecting, he was met by Patrolman King of the S. F. police department and placed under arrest.

Later Sherif Lampkin was notified of the affair and is now searching for the other two men who are said to have beaten Banzagni and Carmani, and to have taken $15 from the latter's pockets before leaving. So far they have not been located.

A PLEA TO CAMPERS

Now that the camping season is once more in full swing, and every stream and lane is lined with auto parties and summer campers, it may not be amiss to repeat that old, but ever needful warning, "Put Out Your Camp Fires." Every year the forest service and the various fire organizations spend vast sums to impress upon campers the necessity of being careful with fire. Yet in spite of the warnings issued, the annual toll of the forest fire amounts to many millions of dollars, due chiefly to carelessness. Remember that all the beauties that make your camp enjoyable this year are entrusted to your keeping. If you don't prefer blackened stumps and ashes—be careful with your fires

ADVERTISING

Last Thursday in San Francisco we saw an aeroplane write the name of a well known cigarette in smoke upon the great blue expanse of the sky. Some hundred thousand people stretched their necks in unison with ours and read the letters and the aviator made $1,000 for his five minutes work.

The company that hired him believes in advertising. The city stores probably sold enough cigarettes during the afternoon to pay his bill. If you have anything to sell let people know about it. Last week a local man put a two line ad in the Times-Gazette that he had some hay to sell. He sold it Saturday afternoon. By Monday four other men came to buy it from him. The man who advertises can get rid of his goods, whether they are cigarettes, hay or any other commodity.

THE REDWOODS

This week we read in a county paper that the Peterson Mill Co. had purchased 300 acres of redwood timber land near Pescadero from William McCormick. This land contains some of the biggest and finest redwood trees in San Mateo county. It is located at Harrison on the Pescadero creek. Campers and picnic parties have enjoyed this section for years. We are informed that the mill people have started to cut the trees.

We believe that all of the redwood trees in San Mateo county should be saved for our children and our children's children. It could well afford to bond itself and buy up the remaining timber claims and dedicate them to posterity. It would be a good move economically also as trees attract and hold moisture and our farmers need rain; our water companies need the streams and our people need to go out into the woods for rest and recreation.

Now is the time for action.

GRADUATION TIME

We are now approaching graduation time. Several of our young men and women have just received diplomas from Stanford or the University of California. Next month a large numbr of our boys and girls will be graduated from high school. They are just now in the best period of their lives. As they are leaving school, we wonder if they are really educated. We once heard Dr. Jordan say that an educated man wasn't a man who knew a great many things, but that an educated man was a man who knew where to find out about a thing when he wanted to know that thing.,

Our idea of an educated man is that he is one who has learned how to meet life. We believe that all men know in a way how to meet life and its problems, but a real education trains the mind so that it will know how to do work cheerfully and happily and efficiently. A real education makes a man or woman a more useful citizen than he or she might otherwise have been.

SUNDAY ON THE HIGHWAY

Last Sunday we backed our little bus out of the barn and started out to enjoy a ride up towards the big city. The Highway was packed with its usual throng of merrymakers, "cut-inners," busses and trucks. And the trucks were the things that got our "nannies." It's easy to pass a machine. You can get over the heart disease you get when a big gray bus gives you the bell and crowds you off the road. You can even quiet your nerves when the long red bus gives you the siren and passes you like a streak. But the truck takes all the decency you have when you crawl along behind it mile after mile waiting for a chance to pass. You try to get by, but the trailer jumps at you and then you dodge back to miss the oncoming monster who wants two-thirds of the road, and so your day is spoiled. But, what we wanted to say is this. We believe that motor trucks should not be allowed on the public highways on Sundays. They can do plenty of damage during the six other days of week. Sunday should be a day when the highways belong to the common people who want to enjoy a real ride through the beautiful country.

PAGEANT TO BE SPECTACULAR IN EVERY RESPECT

Pageantry and the spectacular side of entertainment will be given equal consideration with the regular and educational exhibits at the Peninsula Pageant of Progress and Fair that open its doors to the public at San Carlos next Saturday, according to Secretary R. H. K. Smith of the Peninsula Fair Association yesterday.

Until the close of this tri-county exposition on June 3 its promoters have worked out a program of events that leaves no uninteresting hour. The opening day has been designated as both San Francisco Day and Children's Day. Mayor James Rolph, Jr., together with the mayors of all the peninsula towns and cities will be on hand at the opening ceremonies.

The children will be made happy that day with a Children's Pets Exhibition which will be run on lines similar to that recently held in San Francisco under the auspices of the San Francisco Society for the Prevention of Cruelty to Animals, which has given its full sanction to the event. Boy Scouts will play a prominent part and will pitch camp on the grounds for a night and give outdoor demonstration in all manner of their activities.

Probably one of the most popular and spectacular events on the nine-day program will be the presentation of an historical drama presenting in review more than 1000 actors who will depict the romantic phases of California's golden days, which include the Indian, Spanish and Forty-niner days. No time and trouble has been spared with rehearsals and a generous money appropriation by the fair officials has permitted handsome and lavish costuming and effects. Professionals have been the guiding hand although the performers practically are all amateurs, prominent in business and social circles the entire length of the peninsula.

The project will encompass all the elements of the old fashioned county fair and its attractions together with the exhibits showing the marvels of twentieth century invention in all lines of manufacture and production. Everything that moves will be kept in motion, actual demonstration being a keynote.

QUARANTINE LAW MUST BE OBEYED

County Horticultural Commissioner Tate has issued a statement in regard to the transportation of trees and plants into the county without having them inspected by the proper authorities. The practice of bringing trees and plants into the county in automobiles and not having them inspected is against the law and is also a menace to the agricultural and horticultural interests of the county. Insect pests which may be hidden under the bark or among the leaves of one plant many spread with such rapidity as to destroy entire crops within a very short time.

Evading the quarantine law is a serious offence and is punishable by fine, as proved in a recent case in Los Angeles, when a fruit grower of that city was fined $25 for not notifying the inspector of the arrival of a shipment of trees.

FIREMEN HOLD RADIO BANQUET

The firemen staged a stag party last Tuesday night at the civic auditorium at which there were about fifty present. Fire Chief Ryan and Deputy Sheriff Laracou represented their respective departments by cooking the eats. After the fare had been sufficiently punished, the firemen were treated to a concert of radio music through a portable set erected in the hall by Chief Ryan. The music received was from Hale's broadcasting station in San Francisco.

pay less and get more in **lubrication**

It is a fact, that the "body" of Zerolene follows the changing piston clearances of the automobile engine more closely than other oils, no matter what price they sell at.

Zerolene, made from selected Naphthenic-Base Crude piped separately to the refinery, and manufactured by our exclusive high-vacuum process, resists heat better, forms less carbon, and consequently *the car lubricated with it will run from 25% to 50% farther* without having valves or cylinders cleaned.

Zerolene reduces friction and wear to a greater extent than any lubricants we have seen and tested, or been able to produce for the automobile.

Insist on Zerolene—even if it does cost half as much.

A SELDOM STORY AND A REAL FISH

Attention fishermen! Beat this who can. Harry Potts last Sunday landed a fish seven feet long that weighed 200 lbs. While at work on the Dumbarton bridge, Potts noticed a small boy who was fishing off the bridge, and noticed that the boy seemed to have all that he could handle at the end of his line. He went to the boy's assistance and found that a shark had taken the bate and was putting up a game fight for life. Summoning the bridge crew, they went to work with pike poles and boat hooks, and after about an hour's work succeeded in lifting the great fish onto the bridge tug. The fish was weighed and turned the scales at 200 lbs. The shark was one of the man-eating variety, a species seldom seen in this vicinity.

COMMISSIONER TATE WARNS FARMERS

Agricultural Commissioner Tate in an interview this week sounded a warning to the farmers and horticulturists of the county to beware of fake tree doctors. He stated that a man by the name of Heintzelman had been discovered who was peddling a mixture of brick dust and soda to the farmers of San Jose. This mixture was to be injected into a hole bored into a tree, and would cure the tree of any ailment which it might possess. The authorities of San Jose dealt with Mr. Heintzelman, as a result of which he has changed his residence. The farmer should aways be on his guard, said Mr. Tate, for this kind of unscrupulous grafters, who try to foist all manner of bogus goods onto the farmer. The sellers of some kinds of magical fertilizers were also rapped by the commissioner. Some he said, which are of real value are sold at prices far higher than the ingredients would warrant, and others which are good for one purpose are advertised to perform marvels of all kinds.

Many inquiries are being received by the Horticultural Commissioner as to the best protection for graft wounds, to these he is advising the use of sodium silicate or waterglass. A mixture of three parts of commercial waterglass and one part of water are applied with a brush. It is harmless to the tree, unites with the sap and thus penetrates the pores, forms an insoluable coating and is very lasting.

How to figure the cost of burning a 50 watt electric globe for 1 hour

A 50 Watt Globe is so named because it uses 50 Watt hours of Electricity in one hour. As it takes 1,000 Watt Hours to equal one Kilowatt Hour (K.W.H.)—the unit of Electrical measurement—it follows that a 50 Watt Globe must burn 20 hours to consume one Kilowatt Hour (K.W.H.) of Electricity.

Ask to see the Rate Schedule for your community on file at the P G and E office and divide the rate per Kilowatt Hour (K.W.H.) by 20. This will give you the cost (less than ½ cent) of burning a 50 Watt Globe for one hour.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary distillate and leaves a sickening "gasoline" smell in your clothes

NEWS OF MENLO PARK

Countess K. Lewenhaupt has leased the attractive Inman home, known as the J. B. Leonard place, on Oak Grove avenue, for the summer. She arrived from London recently accompanied by her two sons, Jan Alne Alaric. The countess will be near her relatives, Mr. and Mrs. Clinton Montague and their children. Mr. and Mrs. Bates and Mrs. John F. Merrill of Atherton are her friends. She also has a large circle of acquaintances on the peninsula. The countess was formerly pretty Azalea Keyes of San Francisco and she has large interests in California which bring her back almost every year. She loves to meet her friends in her native state. Count Lewenhaupt, who is prominent in Europe and very wealthy, will be here later in the summer. The count and countess usually spend their winters in Belgium and their summers in France. Mrs. Lewenhaupt is an unusually pretty woman, who has attracted Europe by her charming manner and dashing ways.

Rodger D. Lapham, the capitalist, has purchased the Murphy home on Atherton avenue for the sum of $75,000. It was formerly the Talbot C. Walker residence and is one of the show places of the peninsula. Mr. Murphy and his family moved to northern California some time ago. Mr. Lapham leased the beautiful John Neuman home in Menlo Oaks for the summer having lived there last season. He will now sublet it and will occupy his new home. He is engaged in the lumber business with Mr. McCormick, also of Atherton. The sale is the largest made this year in Menlo Park.

Mr. and Mrs. H. A. Northon of San Francisco have taken the Thompson home, formerly the Doctor Stallard place on Glenwood avenue, for the summer months. The Northons may purchase the property, as they are delighted with this community.

The announcement of the engagement of pretty Miss Frances Merrill of Menlo Park and Robert Duncan, formerly of Palo Alto, but now a prominent atorney of San Francisco, was made last Saturday evening at a dinner by the bride-to-be's grandmother, Mrs. John F. Merrill of Atherton. The wedding is to take place in San Francisco next August, at the Congregational church. There will be several bridesmaids

Miss Merrill is the daughter of the late Mr. John S. Merrill and of Mrs. Gilbert Rech of Chicago. She is a niece of Mrs. Harry Bates, Mrs. William Devereaux, Mrs. Ralph Merrill and Mr. Charles Merrill.

Her grandfather, the late John F. Merrill, was one of the prominent citizens of the first days of the city and with Mr. Charles Holbrook, and the late Mr. John B. Stetson, founded the firm of Holbrook, Merrill and Stetson.

Mrs. Merrill has been noted for a number of years for her charitable work, and has always taken an active interest in civic affairs. Until the fire, the Merrill home was at Van Ness avenue and Washington streets, San Francisco, and was the center of much social life.

Miss Merrill is an exceptionally clever girl and was graduated at Christmas from Stanford University while still in her 'teens. She has taken part in many of the parties of the young set down the peninsula since she left college, and would probably have made her debut in society next winter, if she had not become engaged. With her grandmother, Miss Merrill, will pass June and July in Monterey.

Mr. Duncan is the son of the late Mr. and Mrs. Robert Duncan of Palo Alto, and is a Stanford man. He is practicing law in San Francisco, and the young couple will make their home in San Francisco.

Miss Emma Flood, the winsome and clever daughter of Mr. and Mrs. James Flood, arrived during the week from New York, where she spent the winter During her absence, Miss Flood has been studying sculpturing and will continue her work at her studio here.

Mrs. J. H. O'Keefe, who has been quite ill, is slowly recovering and will soon be convalescent.

The laying of the cornerstone of the new unit of the Stanford Convalescent Home for Children on May 23 will be a big social event down the peninsula. Preceeding the event there will be a large luncheon given in honor of Mrs. Henry Crocker, donor of the unit, by the members of the home auxiliary, of which Mrs. Timothy Hopkins is chairman. This affair will be held at the Timothy Hopkins home at Menlo Park and will include a large group of friends of Mrs Crocker's as well as the members of the auxiliary.

The circus, which will be given by the children of Atherton, Woodside and Menlo for the benefit of the Stanford Convalescent Home on June 23, is attratcing more interest this year than ever before. Already 98 children have entered their names to take part. This is the largest entry ever made.

The circus will be given in the new Menlo Circus Club grounds, wrich have recently been bulit just back of the Convent of the Sacerd Heart at Menlo.

There promises to be considerable competition for queen this year, as five of the children's names have already been entered for that honor. The children will ride their horses and ponies and are making plans for a number of new stunts.

Edward Derry will represent Menlo Parlor N. S. G. W. at the grand parlor that convenes at Santa Barbara next Monday. Mr. Derry will leave for the south this evening. The alternate selected is George Murray.

This is the evening of the big dance under the auspices of Menlo Parlor N. D. G. W. in Native Sons' hall. Dancing all night. Good music and pretty dancers so that the tersichorean may enjoy himself to his heart's delight.

The Southern Pacific Railroad Company has awarded the contract to put in a curb and repair the street back of the depot building. Work has already commenced on this needed improvement. The company is to expend the sum of $3,500 on the work.

Officials of the base hospital here are circulating a petition in Menlo Park for signatures asking for the postoffice department to establish a postoffice at the institution. A similar petition was forwarded to Washintgon last year but there was no action taken on the document at that time. The department is not prepared to grant the prayer of the petition. It was at first thought that a Menlo man would be appointed postmaster, but word came from the capital this week that an inmate of the hospital would get the appointment. The personnel and inmates now number 900. The office is needed.

Last Tuesday in San Francisco a baby girl was born to Mr. and Mrs. James P. Maloney. The proud father was here yesterday receiving the congratulations of friends.

Frank Mills is moving his nursery plant from Palo Alto to his property on the Middlefield road, adjoining St. Patrick's Seminary. The large green houses are being moved together with a vast variety of plants and shrubs.

The proprietor of the French laundry on the highway has purchased the Kennedy lot on Santa Clara avenue extended and is preparing to erect a modern laundry building. Surrounding property owners are fearful that the clouds of smoke issueing from the smoke stack of the proposed building will damage their homes. A meeting of the chamber of commerce will be called to take action and perhaps the scene of battle will be shifted to the board of supervisors at Redwood City, who will be called upon to consider the matter.

At his home near Hollister David Roche, a former pioneer resident of Menlo Park, passed away on Thursday following a long and lingering illness. For many years he had been a sufferer from pulmonary trouble and owing to his advanced age he was unable to shake off the disease. For three months prior to his death he was in a hospital at Hollister. Mr. Roche left here a little over a year ago to reside with his daughter, Mrs Jack Briggs of Hollister. He was born in Ireland and came to live in Menlo Park in 1878 For a number of years and up until a few years ago he was the superintendent of the James L. Flood estate, a position he resigned owing to ill health. He was held in high esteem by his employer and by his friends and neighbors. The funeral will take place this morning at 10 o'clock form the Church of the Nativity. Interment will be in Holy Cross cemetery, Menlo Park, where his wife and daughter are buried. The deceased is survived by the following sons and daughters: John and David Roche, Whittier, Mrs. Jack Briggs, Hollister, Mrs. M. J. Stevenson, Los Angeles, Mrs. J. P. Albert, Menlo Park, Irene Ross, San Francisco, Mrs. F. G. Linde, Taft.

MAKE MERRY AT ATHERTON

Walter Haas, one of the owners of a big overall factory in San Francisco, who resides at Atherton, entertained a number of his employees and friends last Sunday. At ten o'clock a ball game was staged on the local diamond which provided a great deal of sport. After the game the guests went to Mr. Haas' home, the Stearn place at Atherton, where a wonderfully pleasant afternoon was enjoyed.

Gum-Dipped Cords
Gaining New Fame for Service
194% Sales Increase in Last Six Months Shows Trend Toward Firestone

The public has emphatically spoken. The popular preference in all territories is unmistakably the Firestone Gum-Dipped Cord.

A standard of service has been set by these famous tires without parallel in the past. It has brought a sales increase of 194% for the past six months over the same period of a year ago—the greatest gain in all Firestone history.

The Firestone Gum-Dipped Cord is the mighty achievement which has enabled Firestone to break the tremendous record of past Firestone success.

The tire buying public has been aroused to the results in economical mileage of the Firestone process of double gum-dipping. The buying-swing toward Firestone shows how it has advanced the public's standard of tire value.

Ask owners about Firestone performance on their cars. Note the big taxicab fleets Firestone-equipped. Watch the new cars you see—just from the factories; Firestone Gum-Dipped Cords are seen everywhere in fast increasing numbers.

Get the maximum extra mileage that only the Firestone name assures you. Only by insisting on this name can you be sure of getting the genuine gum-dipped construction.

Discovery of San Francisco Bay by Portola

LYING securely hidden behind its Golden Gate, San Francisco Bay defied discovery by sea for more than two centuries. Don Gaspar de Portola, commanding an overland expedition in search of the supposedly wonderful harbor of Monterey, discovered San Francisco Bay, November 5th, 1769.

His first view from the brow of a high hill was spectacular. The bay was named in honor of St. Francis, the patron saint of the Franciscan fathers.

San Francisco, one of the most historically interesting of American cities, is the birth-place of the Bank of Italy—the nation's chief exponent of statewide branch banking.
